

PSX-75

Our revolutionary NEW product!

Murphy's PSX-75 is a concentrated blend of natural polymers, surfactants, corrosion inhibitors, and stabilizers. PSX-75 can be used in any application where rubber needs to be lubricated relative to its dry state. It provides low friction to prevent twisting and cracking; therefore parts will not grab or seize onto the metal, and seat readily and smoothly. Dries to a low slip residue that helps prevent slippage under high loads and high torque.

Features

- Diluted product will stay slippery for 10-25 minutes before drying on surface.
- Contains no petroleum
- Contains no phosphates
- Will not support bacterial growth
- Rust inhibitor added to help fight rim rust

Technical Data

- Form: Gel
- Color: Yellow
- Odor: Lemon
- Flash Point: Non-flammable
- pH: 8-10.5

***Protect From Freezing After Mixing**
